### **Statement of “OMINI FOCUS” Public Service Company Regarding the Arson Attack on YBS Passenger Bus in Dagon Myothit (Seikkan) Township of Yangon Region**

The OMINI FOCUS” Public Service Company released a statement stating that the company is honoured and delighted for the successful prevention of the cruel and

nefarious act of the terrorist group NUG targeting the YBS passengers with the integrated efforts of company staff and the conscientious people.

#### **Statement of “OMINI FOCUS” Public Service Company**

The terrorist group NUG making the name for popularity by taking the words of ‘National’, ‘Unity’ and ‘Government’ has apparently operated as if they were real government in few weeks after its inception. However, far from being a government, the NUG has daily struggled to survive merely as fugitives even after a period of nine months and therefore, behaved wildly through embarrassment by accelerating the acts of terrorism and sabotages.

The NUG once shouted loudly that they would promptly become government if people supported them. Then the NUG gradually realizes that they have not become real government so far as people have not supported them. Therefore, the terrorist group intentionally conducts various kinds of sabotages and terrorist acts targeting the vulnerable innocent people for not supporting them. In this regard, on 5 December 2021, the command team of the Yangon sub-military region of so-called Defence Ministry of NUG released a statement in full melancholy tone, “the momentum of Revolution will be accelerated” as a direct challenge to people by using the words of extortion.

Few hours after the statement, around 3:00 pm on 5 December 2021, when a bus of YBS-99 arrived near Thein Chaung of Dagon Myothit (South), three men on a motorcycle approached and parked in front of the bus blocking its way. Then, one of them threatened

the driver at gunpoint to open the door of the vehicle.

As per the principle followed by the drivers to primarily protect the lives and safety of the passengers onboard in facing such situation, the driver firstly attempted to apologize the man threatening him. However, the man fired at the bottom of the front door forcing the driver to open the door.

While the gunman was pointing his pistol to the driver, one of them sprayed gasoline on the vehicle and set it on fire. After that, they drove off with motorcycles.

Once the terrorists drove off, as the driver managed to put out the fire using the fire extinguisher of the bus, only few damages occurred and innocent passengers targeted by the terrorists were also safe without any injury. Hereby, we are very honoured and delighted for the successful prevention of the cruel and nefarious act of the terrorist group NUG targeting the vulnerable civilians by the integrated efforts of company staff and the conscientious people. Moreover, we extend our profound gratitude to the security force members
