Excerpts from the Speech Delivered by Chairman of State Administration Council Commander-in-Chief of Defence Services Senior General Maha Thray Sithu Min Aung Hlaing at the Graduation Ceremony of the 63rd Intake of Defence Services Academy

The excerpts from the speech delivered by Chairman of the State Administration Council (SAC) Commander-in-Chief of Defence Services Senior General Maha Thray Sithu Min Aung Hlaing at the passing-out parade of the 63rd intake of Defence Services Academy (DSA) which was held at the parade ground of DSA in Pyin Oo Lwin on 7 December are as follows:

- The Comrades trained to be well-rounded and calibrated officers in the Alma Mater will be assigned as junior commissioned officers in respective corps and services of Tatmadaw (Army, Navy and Air).
- Since the comrades are to shoulder onerous duties of the country, one needs to be proud of one's duty and assignment. Therefore, I would like to urge comrades to soldier on the assigned duties with minimum control and dutiful manner.
- Defence Services Academy is inaugurated on 1st August 1954, and 63rd intakes including comrades have passed out as "The triumphant Elite of the Future" being invaluable to future country and Tatmadaw.
- In accord with the aims of Defence Services Academy, comrades who joined the Tatmadaw with their own consent and strong determination have already been nurtured as good leaders who are imbued with courage and capable of distinguishing right or wrong, good or bad and being trustworthy for the country and Tatmadaw.
- The leaders must be knowledgeable to become men of sagacity and prudence. It is needed to have a sustainable reading for being so.
- I would like to urge that it is needed

to try to become good soldiers with competency and to strive for the effective use of advanced military weaponry, equipment, tactic and technology in accord with the training policy “Study, Practise, Comply”.

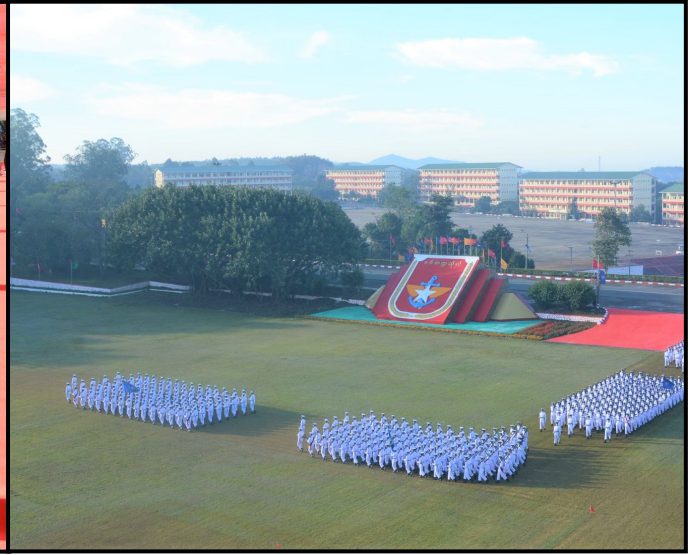

- Since we, military personnel, are obliged to serve the national defence duty at all times regardless of the weather, we need to put emphasis on physical and mental fitness.
- Since our Tatmadaw is an institution organized for National Defence, I would like to say that comrades have to practise discipline, obedience, mutual respect and esprit de corps, and behave as professional soldiers.
- Comrades who have to preserve the good traditional values of Tatmadaw need to be the quintessence of discipline. Discipline is the backbone of Tatmadaw and the soul as well.
- When you join the Tatmadaw, the drill is the very first basic military training you have to do. It can be said that the basics of every military personnel commence

with military discipline since the aim of the military drill is to adhere to military discipline, order and responsibility.

- In order to make an institution stand firmly and everlastingly, it is mandatory for it to organize and train systematically by means of rational policy, explicit rules and regulations, law, command and control by taking responsibility and accountability.
- Our Tatmadaw can be recognized as the strongest institution because of its good discipline and obedience since its first establishment.
- In addition to military discipline and directives, comrades will be successful leaders by practising the virtuous Sixty Codes of Conduct steadfastly to which every military personnel has to abide.
- Our Tatmadaw also adheres to not only Military law but Civil Law, International Laws, Laws of War and Rules of Engagement (ROE).
- Comrades must be the quintessence of discipline, and lead the subordinates to do so even though it is a mere trifle.

- As young leaders, it is necessary for you to be of good morale and morals. To be good morals, one needs to behave in line with religious and social culture and to respect and sympathize with others.
 - Myanmar people always genetically value national characteristics. Hence, you need to preserve and promote these national characteristics.
 - As for a country, enhancing the patriotism of the people is a crucial issue. Patriotism means the mind-set to cherish the country, nationality, religion, language and culture, the mind-set of unbearable pain for encroaching the country and nationality, and the mind-set to sacrifice for the country.
 - Successful leadership means that subordinates unanimously perform the task given by the leader with their own willingness.
 - You need to lead your subordinates in the ways of integrity, discipline, justice, unbiased and true leadership. Moreover, you have to behave as the quintessence of a good leader yourself and need to acquire the trustworthiness and faithful co-
- operation of your cohesive forces by the combined utilisation of leadership spirit and the spirit of father figure.
- To be able to stand with immense strength rigidly, the unity of an organisation is needed to be promoted internally.
 - If there is a great unity of organisation, the ability of administration and military capability will also be developed. It is required to give special consideration to achieve the implementations on securing the powers of organisation in terms of internal and external in a compact manner.
 - At present, military affairs around the globe change along with the recent advances in not only Science and Technology but Information and Communications Technology (ICT). With regard to military affairs, the right use of these advances can be very beneficial for the Tatmadaw personnel.
 - Due to tonnes of information in an advanced communication network, our Tatmadaw personnel holding our own self-consciousness are required to scrutinise and analyse the fake and fabricated news via the social network.

- To win in a political tug-of-war, at the beginning of the Independence, the political parties attempted to exploit Tatmadaw by inciting. Due to the failed attempts, it can be vividly seen that they eventually focus on spreading out baseless accusations to disintegrate and ruin the reputation of Tatmadaw.
- On the way to a multiparty democracy collocating with the desire of the entire citizen, essential cores for the development of the country and democracy ambition are national peace and tranquility, and perpetual peace.
- Our national peace must only be restored by the collective effort of our people. Therefore, I would like to underscore that any possible ways will be discovered in accord with agreements prescribed in the Nationwide Ceasefire Agreement (NCA) to bring durable peace.
- It has been two successive governments that Tatmadaw has established the multiparty democracy system from the basics along with people desire.
- The intentionally voting frauds occurred in 2020 general election was an ugly and shameful event for the country, and there have been negative impacts on the country and people.
- Threats by terrorist groups such as CRPH, NUG, and PDF which appear from the voting fraud issues made some people lose their wisdom and asked them to destroy themselves by committing terrorist actions.
- Setting fire and mine blasting to schools and buildings owned by the government and private, assassinating educational staff and government employees, disrupting the process of COVID-19 preventive injection and targeting security forces are a series of actions committed by terrorist groups to destroy the country mechanism. People accept these offences as terrorist actions, but some local extremists and other countries neglect their actions and encourage them to continue.
- Although democracy has to be performed by the people's desire, people's desire must be honest and truthful for worthy politics. I would like you to bear in mind that democracy with a lack of honesty is hard to tell whether it is a genuine democracy.
- As our country is on the way to people

- who desire a multi-party democracy route, Tatmadaw has to stand tall to maintain it along with the Constitution.
- Moreover, Tatmadaw has to safeguard Three Main National Causes as the national policy, let the country be led by any political system and government.
 - They all must make efforts to be officers entrusted by your superiors, respected by subordinates and trusted by people in conducting the assigned missions, to raise yourself by what you have learnt with the consolidation of consideration
 - They also need to apply the Sixteen Characteristics of Leadership Skills in combining with practical ground experience.
 - Moreover, they also required to accomplish the assigned duties in safeguarding the nation from internal and external threats.

The ceremony was attended by Commander-in-Chief (Navy) Admiral Zeya Kyawhtin Moe Aung, Commander-in-Chief (Air) General Sithu Maung Maung Kyaw, senior military officers, Union Ministers,

State Administration Council Chairman Prime Minister Senior General Min Aung Hlaing Toured Myanmar Pharmaceutical Factory (Pyin Oo Lwin), Pyin Oo Lwin Railway Station and Urban Areas in Pyin Oo Lwin

Chairman of the State Administration Council Prime Minister Senior General Min Aung Hlaing accompanied with Council members, Council joint Secretary, Union Ministers and officials inspected the Myanmar Pharmaceutical Factory (Pyin Oo Lwin) in Anisakhan, Railway station and Kandawgyi Lake in Pyin Oo Lwin town on 7 December.

After hearing the reports of the officials from Myanmar Pharmaceutical Factory (Pyin Oo Lwin), the Senior General urged the officials:

- To carry out research and produce quality medicines essential for prevention and treatment of COVID-19.
- To manufacture quality medicines by using quality raw materials.
- To carry out research to study diseases common in the country and to produce medicines necessary to cure those diseases and medicines that contribute to public health.

- To manufacture primary medicines necessary at home based on the policy that ‘Nothing is more important than human lives’ as the county faced difficulty importing medicines from other countries during the outbreak of COVID-19.

Then, the Senior General and party inspected the quality control department, the liquid oral medicines department, the tablet and capsule production department and the storage departments for raw materials and finished products in the factory.

Then, the Senior General and party proceeded to Pyin Oo Lwin railway station and heard reports presented by officials. Afterwards, the Senior General stressed the following points:

- It is required to upgrade and properly carry out maintenance tasks along Mandalay-PyinOoLwin-Nawngkhio railroad for smooth operations of trains and shorter travel time and to expand platforms for the convenience of travelers.

Chairman of State Administration Council, Prime Minister, Senior General Min Aung Hlaing hearing the reports of the matters relating to the productions of medicines by Chairman of the Myanmar Economic Holdings Public Co.,Ltd, Lt-Gen Hsan Oo

- Then, the Senior General urged officials to carry out conservation tasks of the station in its original style as it is an ancient building.

Afterwards, the Senior General and party continued to Kandawgyi Park in PyinOoLwin and heard reports on carrying out conservation tasks of the lake by responsible officials. After hearing the reports, the Senior General gave necessary instructions on the conservation of the lake.

As water supply to the lake decreased, the Senior General gave instructions on measures taken to increase water supply to the lake and maintenance of watershed areas when he visited PyinOoLwin

in September. As responsible officials carried out maintenance tasks of the lake, the water supply to the lake has improved and the depth of the lake has now risen to 19.4 feet from 11 feet during the same period last year.

Union Minister for Transport and Communications Admiral Tin Aung San Joins 2nd Mekong-Lancang Water Resources Cooperation Forum

The China-led 2nd Mekong-Lancang Water Resources Cooperation Forum was held via videoconferencing on 7 and 8 December.

At the opening ceremony, the Ministers of member countries and UN's Under-Secretary-General Mr Liu Zhenmin made opening remarks. Then, the Union Minister said that:

- This forum is a good chance to discuss the promising water resource cooperation works and to share the experience and knowledge among the Mekong-Lancang region countries.
- Water resource management plays an important role for the daily life of citizens as Myanmar is an agricultural country.
- Myanmar is not only actively participating in regional water resource cooperation but also in international water resource cooperation.
- Currently, the project on installing rain-

falls monitoring equipment which supports flood warning system is being conducted, using the Mekong-Lancang special fund.

- Myanmar and China signed MoU in 2019 and the projects on water resource cooperation are being implemented.
- He expressed words of thanks to China for supporting Myanmar regarding water resource management and anti-COVID-19 equipment.

The forum emphasized the enhancement of cross-border cooperation and exchange of information, discussion on Mekong-Lancang water resource cooperation of young people, water resource conservation and green growth, multisectoral approach to water resources management and climate change, conservation of water resources and promotion of living standards in rural areas, sustainable hydropower energy production and adequate power.

The opening ceremony of the Forum was

held on 7 December and more than 500 representatives including Ministers of water resources related ministries from member states of Cambodia, China, Laos, Myanmar, Thailand and Vietnam, and senior officials from the UN and international institutions and representatives and researchers from Mekong-Lancang Water Resources Cooperation as well as Union Minister for

Transport and Communications Admiral Tin Aung San, Deputy Minister and officials from water resources related ministries from Myanmar joined the ceremony.

- He expressed words of thanks to China for supporting Myanmar regarding water resource management and anti-COVID-19 equipment.

COVID-19 Prevention, Control, and Treatment Activities Continue in Respective Regions and States

Vaccinating students against COVID-19 at Basic Education High School in Kholan township

COVID-19 prevention, control and treatment activities such as opening quarantine centres and vaccinating people against COVID-19 continue in respective regions and states.

- The vaccination processes continue in respective regions and states as per the priority programme, and a total of 89,228 people have been vaccinated against COVID-19 as second dose and 145,346 people as first dose on 7 December.

- A total of 27,562 students aged 12 years and above from Basic Education Middle and High schools in respective regions and states have been vaccinated against COVID-19 as second dose and 8,012 students as first dose on 7 December. A total of 1,372,157 students have been vaccinated against COVID-19 up to 7 December.

Measures are being taken to facilitate the import of COVID-19 control, containment and treatment medicines and related equipment-

- On 7 December, a total of 4,000 empty

oxygen cylinders and 16 tons of masks were imported via International Seaports and Chinshwehaw border trade post.

The Ministry of Health is conducting COVID-19 tests regularly, 367 new cases of COVID-19 were found from testing a total of 17,726 samples and the infected rates are 2.07 percent on 7 December. Up to 7 December 2021, a total of 525,005 cases were found from testing a total of 5,715,927 samples and death toll reached 19,152.

Ex-Union Minister for Natural Resources and Environmental Conservation Charged under Anti-Corruption Law

The Anti-Corruption Commission (ACC) set up an investigation team of inquiry and took necessary measures on the complaint to investigate the ex-Union Minister for Natural Resources and Environmental Conservation U Ohn Win as per the Anti-Corruption Law.

According to the findings of the investigation team:

- Ex-Union minister U Ohn Win for Natural Resources and Environmental Conservation instructed the managing director of the Myanmar Timber Enterprise to sell a total of 172.0764 tonnes of teak, ironwood and gumkiho logs to be used for the construction of the Moonlight Forest Project and related facilities by the Daw Khin Kyi Foundation by his decision, not by the Tender System which is accordingly to President's Office

Directive No 1/2017 on the two applications.

- According to the audit findings of the Office of the Auditor-General of the Union, it was found that the state lost more than K100 million according to the selling price and the tender winning price of the Myanmar Timber Enterprise and the local market price comparison of the Highway Development and the relevant regional government. Therefore, the ex-Union minister U Ohn Win was found guilty of corruption while in office.

A case was filed against ex-Union Minister for Natural Resources and Environmental Conservation U Ohn Win under Section 55 of the Anti-Corruption Law at Phayagon Myoma Police Station in Nay Pyi Taw on 7 December 2021.

Terrorists Using Small Arms Attacked No (1) Basic Education High School in Kanpetlet Township of Chin State

Terrorists are not only launching attacks on innocent people residing peacefully and administrative officials implementing for the rule of law in some areas but also exploded IEDs to destroy schools where innocent students are studying.

On 7 December, CDF terrorists opened fire at No (1) Basic Education High School located in Kanpetlet township of Chin State using different arms from the positions about 200 meters to the East, Southeast and Northeast of the school. As security forces returned fire at terrorists, the latter retreated.

CDF terrorists operating around Kanpetlet often do the acts of setting fire to Township General Administration Department Office and departmental offices, and attacking No(1) Basic Education High

School repeatedly as well as destroying and taking bags of rice ration for service personnel in order to jeopardize peace and stability of Kanpetlet township, taking security forces by surprise.

The local people are willing to arrest the terrorist groups of so-called CDF in Kanpetlet township and to take punitive actions against them as early as possible because they are blowing up and destroying the public school buildings in order to harass the physical and mental safety of peaceful civilians and school children in the township.

Local military columns joining hands together with people are taking security measures to take actions against the terrorists who sneakily opened fire at a school of non-military target.

Terrorists Bombed a Vehicle Carrying Hospital Staff to Take out Medical Supplies in Budalin Township of Sagaing Region

On 6 December, while a Super Custom vehicle carrying the hospital staff: Daw Khine Khine Htwe, 48, Ma Htate Tin Htwe, 25, Kyaw Zin Phyoo, 19, and U Zaw Min Than, 52, of Budalin Public Hospital of Sagaing region was leaving for Monywa to take out hospital medical supplies, it was bombed on the way near the Kyeepinchaung village by terrorists.

Due to the explosion, left/right windows and the fuel tank of the vehicle were

destroyed. Moreover, Daw Khine Khine got a torn wound on her forehead, Ma Htate Tin Htwe got scratch wound on his back, Kyaw Zin Phyoo got 2 scratch wounds on left/right forearms and U Zaw Min Than got torn wounds on left ears, temple and skull respectively. They were transported to the Budalin Public Hospital.

As terrorist armed groups are bombing non-military targets of public hospitals/health centres, departmental offices and

vehicles carrying civil societies, the people feel fear of terrorist acts and disgusting them as well as wish those terrorist groups to be taken legal actions strongly.

Security forces have been conducting security measures by joining hands with local people in order to search effectively ter-

rorist armed groups who are launching bomb attacks recklessly for no reason

- As terrorist armed groups are bombing non-military targets of public hospitals/ health centres, departmental offices and vehicles, a total of four hospital staff were injured.

An Innocent Five-Year-Old Girl Dies in Bomb Explosion by Terrorists in Chanmyathazi Township

A five-year-old innocent girl was killed in a grenade attack by terrorists in Chanmyathazi Township of Mandalay region.

In the incident, terrorists riding two motorbikes arrived the Aunghaya Ward Administration Office located at 110th Road, between 45th and 46th Streets in Chanmyathazi Township of Mandalay region and drove off after throwing two grenades to the office on 6 December. The gre-

nades exploded in front of a betel-quid shop located on 110th Road leaving a five-year-old girl in the shop seriously wounded and she died of the injuries although she was taken to Mandalay Public Hospital.

The terrorists of so-called PDF are doing crimes of exploding grenades, planting mines, arson attacks and reckless shootings to innocent civilians in community areas and township. Regarding the incident of grenade attack of terrorist groups NUG/

PDF to the ward administration office that killed a five-year-old child, fake news and fabrications portraying as if the child was killed by the attacks of security forces also appeared. The terrorist groups of NUG/PDF are often reportedly making fake news and fabricated reports in order to cover up their nefarious acts and to cause misunderstandings over the security force members

by people.

Security forces reportedly are searching for those who committed the violent acts that led to death of a five-year-old innocent girl, and the participation of locals are also called for the community peace and stability.

Terrorists Attack Police Outposts Conducting Security Measures Using Grenades, Homemade Bombs and Small Arms

Security forces are conducting security measures so that people can live in peaceful environments in respective townships. On the contrary, the terrorist groups of so-called CRPH and NUG, after organizing PDFs with the intentions of utter devastation, are committing the sabotages and violent acts such as killing innocent civilians living in peace, blowing up and burning down the state-owned buildings and public areas as well as robberies across the nation.

On 6 December, while the polices were serving duties at the police security outpost located in Warbalaukthauk village in Kawhmu township of Yangon region, terrorists riding three motorcycles arrived near the outpost. The terrorists then took position near the electric transformer and attacked the police outpost with homemade bombs and small firearms. As the polices returned fire to frighten the terrorists, they ran away to Dala town. Afterwards, members of secu-

curity forces found one un-licensed motorcycle, an empty bullet shell and a male dead body with gunshot wounds, who was later identified as a stranger in the village, at the scene.

Similarly, terrorists attacked Kan Kaung police outpost beside the Yangon-Mandalay Expressway in Meiktila township of Mandalay region using grenades and homemade bombs. During the incident, some of the police members died and some were injured.

In the incidents, the terrorists so-called PDF are targeting the security forces who conducted anti-terrorist measures be-

cause the formers are aiming at destroying the community peace and stability and also increasing the extreme acts of terrorism in villages, wards and townships. Therefore, security forces are intensifying their security measures to combat against the terrorists of so-called PDF and to ensure community peace and stability.

Security forces are accelerating security measures in collaborating with the people to arrest the perpetrators who committed the acts of terrorism in the above-mentioned incidents and to ensure the community peace and stability.
