Chairman of State Administration Council Prime Minister Senior General Min Aung Hlaing Meets with Religious Organizations and Industrial Entrepreneurs in Mandalay City

The Chairman of the State Administration Council (SAC) Prime Minister Senior General Min Aung Hlaing met with leaders of all religious organizations, town elders, and officials from Mandalay Industrial Zone Management Committee, Mandalay region Chambers of Commerce and Industry at the city hall in Mandalay region on 23 January.

During the meeting, the Chairman of the SAC Prime Minister discussed the following points:

- As Mandalay is a cultural city, the Prime Minister is desirous of witnessing the city's progress. It can be seen that Mandalay was significant progress during the terms of multi-party democracy governments. If those developments are used more effectively, the city will really become an economic hub.
- During the tenure of Commander-in-Chief of Defence Services, the Senior General could conserve the palace walls and renovated the palace compound, cannon museum, Boktalok Lake and other historical heritages in Nanmyo in cooperation with the Department of Archaeology and National Museum.
- As Mandalay is a cultural city of Myanmar, it is necessary to preserve the culture and prestige of Myanmar dynasties.
- Mandalay is the economic hub and it can connect with any region or transport goods to them easily.
- As Mandalay Region has the least rainy days and lesser rainfalls, electricity can be generated solar power. To do so, the government will allow it.
- Regarding the transportation sector, roads and railways are being improved in Mandalay region. Trains can transport many passengers and cargo. So, efforts are being made to improvement of railways and arrange right time transportation.
- Mandalay city has Small and Medium Enterprises (SME) industries based on the agriculture sector. As it is a cultural city and ancient city, there are many pagodas and religious edifices as well as cultural heritages in Mandalay. Religious culture and cultural heritage of ancient buildings can be seen in Mandalay. As such, it is necessary to improve the services of the tourism industry to attract travellers.
- Every country is striving for development of respective countries. The gov-

ernments which cannot manage development of the countries face various problems. Those who could develop the countries can take support of the people. Hence, efforts are being made for development of the nation.

- The government opens basic education schools and universities for all citizens to learn education and encourages academic measures. Efforts must be made for turning out the educated persons by applying the sound foundations.
- The government aims to ensure the prosperity of the nation with food sufficiency. The prosperity of the nation must affect the happy working of the people, prevailing rule of law, peace and

free working.

- The Senior General requested all religious leaders in Mandalay to urge the people to participate in prosperity and development of the country.

Afterwards, the Chairman of the SAC Prime Minister Senior General Min Aung Hlaing presented gifts and K15 million each to religious organizations in Mandalay through respective religious leaders.

Chairman of State Administration Council Prime Minister Senior General Min Aung Hlaing Inspects Mandalay-Myotha Industrial Park City Construction Project

The Chairman of the State Administration Council (SAC) Prime Minister Senior General Min Aung Hlaing accompanied by officials inspected the implementation of the Mandalay-Myotha Industrial Park City Construction Project in Mandalay region on 24 January. At the construction project, the Prime Minister highlighted the following points:

- As the project area is located in the tropical region, trees must be grown on the edge of the project area and vacant areas for creating a greening environment.
- In inviting investors in the industrial zone, business operations can be carried out quickly by applying for investment approval in accordance with designated rules and regulations of the Myanmar Investment Commission (MIC) and relevant ministries.
- In connection with the use of electricity, as the responsible officials need to take measures to generate electricity by using

solar energy in addition to electricity supplied by the government as it is a dry area with the least rainy days.

Afterwards, the Prime Minister heard the reports on the plans for allotment of more than 3,000 acres of land as the livestock zone between Myingyan and Ngazun townships and supply of water in the zone presented by the officials. The Prime Minister then gave necessary instructions on the reports as follows:

- It is necessary to take long term prospects of the livestock breeding zone into consideration by utilizing systematic livestock breeding techniques appropriate for the region.
- The benefits can be gained by setting an area for building solar plants to generate electricity for pumping water from the river and electrifying the livestock zone.
- The setting of the land as livestock zone must be under the law.

Chairman of State Administration Council Prime Minister Senior General Min Aung Hlaing Inspects Yeywa Hydropower Project

The Chairman of the State Administration Council (SAC) Prime Minister Senior General Min Aung Hlaing accompanied by officials inspected Yeywa Hydropower Project in Kyaukse District of Mandalay region on 24 January.

After the Chairman of the SAC Prime Minister heard the reports on the conditions and functions of Yeywa and Deedok hydropower projects presented by Union Minister for Electricity and Energy, he stressed the following points:

- The implementation of upper and middle Yeywa hydropower project will continue. Likewise, the implementation of Deedok hydropower project must also continue.
- Generating electricity with the use of LNG is very expensive. Priority must be given for generating renewable energy such as hydropower and solar power.
- Electricity is essential for the national development. The government has to use a lot of financial power and time for power projects.
- Although the implementation of hydropower is based on larger investment and

expenditure should be calculated, its benefit can be valuable.

- The price of units Yeywa has been producing since its commissioning has already passed its cost. Moreover, the project has been supporting the socio-economy of the people and national development a lot. So, its benefits are immeasurable.
- National development needs electricity and it is required to reduce the unnecessary power consumption. Moreover, LED lights may be the answer for saving electricity. Utmost efforts should be made to increase power generation and reduce power consumption.

The Chairman of the SAC Prime Minister inspected the generating electricity and the inflow of water to Yeywa Dam, and presented cash awards for staff.

Chairman of State Administration Council Prime Minister Senior General Min Aung Hlaing Inspects No (1) Steel Mill (Myingyan) under Ministry of Industry

The Chairman of the State Administration Council (SAC) Prime Minister Senior General Min Aung Hlaing inspected the No (1) Steel Mill (Myingyan) under the Ministry of Industry in Myingyan township of Mandalay region on 24 January.

Regarding the functions of the Steel Mill, the Chairman of the SAC Prime Minister stressed the following points:

- The country primarily requires deformed

iron bars. As the country demands a large volume of steel, the steel production projects must be implemented for completion as scheduled.

- During the construction project, 99.34 per cent and 95.02 per cent of machinery for Steel Mill (Myingyan) had arrived. But, the Hluttaw decided to stop the project under voting in 2017. So, the country lost a lot of funds. Now, the loan is being paid back.

The Chairman of the State Administration Council Prime Minister Senior General Min Aung Hlaing inspecting the working activities in the No (1) Steel Mill (Myingyan)

- Production of steel is of importance for the nation. Supervision must be made for the timely completion of the project in respective parts.
- As the country needs a lot of steel wares for construction projects, businesspersons are allowed under the disciplines for producing steel wares.
- Myanmar possesses iron ore, coal and limestones to be used in the production of steel. If efforts can be made for the production of steel wares to be used in construction projects in states and regions, the import of steel wares can be cut.
- In so doing, it is necessary to consider the work process under the strategy for

the State.

Afterwards, the Chairman of the SAC Prime Minister Senior General Min Aung Hlaing underscored that Myingyan Steel Mill will be a major drive for the development of iron and steel wares in Myanmar and the improvement of Myanmar industries. The Prime Minister then inspected the foundry and Melt Shop 2 of the mill and gave instructions on reports of the officials.

Foreign Trade Statistics Show Myanmar’s Trade Surplus over US\$0.67 Billion in 2020-2021FY

According to Myanmar’s foreign trade statistics for the financial year 2020-2021, Myanmar exports were US\$15.36 billion and imports US\$14.69 billion. As the trade volume was US\$30.05 billion, the trade surplus was more than US\$677 million.

In comparison of exports by export items for the financial year 2020-2021 to the same period of the previous financial year 2019-2020, more agricultural products were exported while there was a decrease in exports of animal products, fishery products, minerals, forest products, manufactured goods and other goods. In comparing the imports of items to the same period of the previous financial year, imports of investment products, industrial raw materials and consumer goods were reduced.

The trade deficit has been steadily declining to US\$1 billion in the 2018-2019 financial year from US\$5.4 billion in the 2015-2016FY as exports were increased in value from the 2017-2018FY. Despite the regular export of agricultural products, fishery products and minerals worth US\$17.7

billion in the 2019-2020FY due to the impact of COVID-19, exports of manufactured goods (garments, natural gas) were reduced, and imports of investment materials (electricity distribution, construction materials and telecommunications equipment) increased slightly from the previous FY, resulting in a trade deficit of US\$1.37 billion. In the financial year 2020-2021, the trade surplus was US\$677 million.

A Fire-fighter Injured in Budalin Township as PDF Terrorists Launched Bombing Attack on a Fire-engine Returning after Putting out the Fire

On 22 January, a fire broke out as a man set alight the corn stalk stacks near the fence of Zeetaw village in Budalin township of Sagaing region. According to the information tip, members of Budalin Township fire brigade along with two fire-engines and one water tender arrived there and put the fire out, preventing the spread of fire to the houses of the residents in the village.

Two fire-fighters along with the fire-engine returned back to Township Fire-

fighting Administration Office in Budalin to conduct other rescue tasks while one fire-engine and water tender were checking and monitoring the condition of solid remnants of fires to ensure fire does not break out again. On the way back to the fire station, PDF terrorists attacked the vehicle with an IED at the junction of Yonetaw village between the mileposts of 98-mile-7 furlong and 99-mile on the Budalin-Monywa road. The attack caused damage at the windshield

Fire fighting vehicle destroyed due to the mine blasts of so-called PDF terrorists

of the vehicle and shrapnel wounds in a fire-fighter's nose and right arm, who is now being received medical treatment in the Budalin Public Hospital.

PDF terrorists have launched terrorist attacks on innocent civilians, civil servants, security forces members and, they are also repeatedly committing motiveless shootings and bomb attacks on philanthropic organizations, members of fire brigade and volunteers, threatening their lives. The people were disgusted by the violent acts of terrorists and the entire population wants international communities to oppose them as well.

It is reported that security forces members continue further investigations to identify and arrest the terrorists who committed bomb attack on fire-fighters serving the tasks to safeguard lives and property of the people.
